

# **The Montessori Guide: Reflecting on Practice**

**Presented by, Gretchen Hall**

---

**T**he role of the adult in Montessori environments is not an easy one and it is often a challenge to balance the many responsibilities associated with it. While focusing on the development of our children, we often forget to focus on our own development as practitioners. In this workshop, we will spend the day looking inward at our own practice as a means to renew our commitment to serve and to refresh our spirits. In addition, you will gain practical strategies for achieving balance in your life, both inside and outside of the classroom.
